

Christian Sanfilippo, MD

Dr. Christian Sanfilippo grew up in Southern California. He attended University of California, San Diego for undergraduate and went on to medical school at UCLA. There he graduated with Alpha Omega Alpha honors. After medical school, Dr. Sanfilippo completed ophthalmology residency followed by vitreoretinal surgery fellowship training at the Stein Eye Institute at UCLA. He joined The Retina Partners in 2018 where he is now a partner. His numerous publications include studies on the use of multimodal imaging, wide-field angiography and OCT angiography in the diagnosis and management of retina disease. He has contributed to multiple book chapters on topics ranging from hereditary and pediatric retina diseases, to inflammatory and vascular conditions of the posterior segment. In 2020 he joined the UCLA volunteer faculty, and continues to teach surgical and medical retina to the UCLA ophthalmology residents and fellows at Olive View Medical Center on a monthly basis.
