

Elisabeth Ference

Dr. Ference is an Assistant Professor of Clinical Otolaryngology. She treats all diseases of the ears, nose and throat and specializes in sinus and skull base disorders. She has a special research and clinical interest in minimally-invasive sinus procedures including balloon sinuplasty, steroid eluting implant placement, inferior turbinate reduction, eustachian tube dilation, and nasal valve repair. She has published extensively on evidence-based antibiotic usage, balloon sinuplasty and outcomes of sinus surgery. She is dedicated to improving the quality of life of both adult and pediatric patients with sinus problems and allergies.
