

# Dr. I. Paul Singh

Dr. I. Paul Singh, a Wisconsin native, joined The Eye Centers of Racine and Kenosha, founded in 1981 by his father, Dr. Kanwar A. Singh, in 2004 as the areas only glaucoma specialist. He completed his residency at **Cook County Hospital** – Division of Ophthalmology, and his internship at Michael Reese Hospital – Department of Medicine, both in Chicago, Illinois. He graduated from Finch University of Health Sciences, The Chicago Medical School in 1999. His undergraduate education was completed at Washington University in St. Louis, with a B.A. in Biology and Psychology. He completed his fellowship in Glaucoma at Duke University in July 2004 before returning back to his hometown. Dr. I. Paul Singh, Racine & Kenosha counties ONLY Glaucoma Specialist.

Throughout his Ophthalmology career, Dr. I. Paul Singh has been involved with clinical research and has published papers in several ophthalmology journals. He has also presented his research at various national meetings and universities. Dr. I. Paul Singh has a passion for advancing education and technology. He enjoys opportunities to find novel treatment options to help patient's quality of life. Dr. I. Paul Singh has brought a number of new technologies to the Racine and Kenosha areas, through adoption and research. Dr. I. Paul Singh is the first ophthalmologist in the state of Wisconsin to implant the iStent and Hydrus glaucoma drainage devices, perform viscodilation and trabeculotomy with the OMNI device, and goniotomy with the Kahook Dual Blade. These new approved FDA devices help to bring the pressure in the eye down in a very safe and controlled way with much less adverse events than traditional glaucoma surgery. He was an investigator for the newly approved Durysta glaucoma drug delivery implant and was the first surgeon in Wisconsin to use novel drug delivery products, such as Dextenza and Dexycu, to reduce inflammation post ophthalmic surgery decreasing the need for topical steroid drops as well as drug delivery platforms for glaucoma. He has also pioneered the use of in-office lasers to remove visually significant floaters. Recently, he was instrumental in bringing laser assisted cataract surgery to the area and set up the world's first 3D heads up in office surgical suites. He enjoys giving lectures and teaching seminars around the globe to help other doctors adopt these and other newer technologies and techniques.

Although Dr. I. Paul Singh is an ophthalmologist by profession, he is also a musician at heart. He is a founding member of the band, **Funkadesi**, which mixes Indo-Afro-Caribbean styles of music. The focus of the band is to bridge cultures and educate others on tolerance and understanding through music. The band tours the world spreading the message “one family, many children.” Dr. I. Paul Singh is also an avid tennis player, playing four years in college, and continuing to play on USTA leagues today. He enjoys music and sports with his wife and three children at home. He often remarks, “Kids seem to put life in perspective.”
