

Dr. Nicole Fram is a board-certified ophthalmologist specializing in refractive cataract surgery, corneal disease and complex cataract surgery. She is the managing partner of Advanced Vision Care and clinical instructor of ophthalmology at the Stein Eye Institute, UCLA. She completed her residency at Wills Eye Hospital, followed by a fellowship in cornea, refractive and external disease from UC San Francisco Francis I. Proctor Foundation. Academically, she has authored textbook chapters and articles on ophthalmology for peer-reviewed medical journals. Dr. Fram lectures nationally and internationally and enjoys teaching innovative surgical techniques to colleagues, residents and fellows.
