

## Sasan Fazeli, MD

City of Hope Cancer Center  
Department of Endocrinology

I am an oncologic endocrinologist specialized in the management of all stages of thyroid cancers. I am a graduate of The George Washington University Endocrinology fellowship, as well as the Advanced Endocrine Neoplasia fellowship at the MD Anderson Cancer Center. I am currently working as an Assistant Clinical Professor and lead thyroid cancer program in the department of Endocrinology at City of Hope Cancer Center, a joined fellowship program with Harbor UCLA.

I have worked closely with world renowned leaders in the field of endocrinology and Endocrine oncology. I have published papers on the differentiated thyroid cancer with different genomic signatures. My recent work has been on the differentiated thyroid carcinoma with BRAF mutations.

Sasan Fazeli, M.D
