## **TEXTBOOKS**

### **PEDIATRIC OPHTHALMOLOGY AND STRABISMUS**

**Wright KW**, Editor-in-Chief and Co-Author, 1st ed. 900 pages. Published 1995, Mosby, Philadelphia, PA; 2nd ed. 1084 pages. Published 2003, Springer, New York, NY; 3rd ed. 1,386 pages. Published 2012, Oxford Press, Oxford, England.

*Excerpt from American Journal of Ophthalmology Review, June 1996.* Reviewed by James B. Ruben, Sacramento California. If one were to ask the age-old, desert island question or if one could rub an Aladdin's lamp as a pediatric ophthalmologist and ask for a single book, the answer to which volume one would choose is clear. *Pediatric Ophthalmology and Strabismus* is so comprehensive, so well edited, and so informative that virtually everything one needs to know about the subject is contained within its 900 plus pages.
